

CROWN MINING ENGAGES INVESTOR RELATIONS SERVICE

TORONTO, CANADA, March 15, 2017 – Crown Mining Corp., (“**Crown**” or the “**Company**”) (TSX Venture: CWM) is pleased to announce that it has entered into an investor relations agreement (the “Agreement”) with Allyson Taylor Partners Inc.(“Allyson”), an investor relations and capital markets consulting firm based in Montreal, Quebec. Allyson will be providing a number of services to Crown pursuant to the Agreement, including evaluating advantages and disadvantages of several transactions in light of the Company’s objectives; assisting Crown in geographically diversifying its presence within the Canadian and European investment communities; and introducing Crown to institutional investors, retail brokers, high net-worth individuals and European investors.

The definitive terms of the Agreement include paying Allyson a monthly work fee of \$10,000 (plus all applicable taxes and expenses) for a period of six (6) months, and granting to Allyson 300,000 options (the Options”) to purchase common shares in the capital of the Company at \$0.105 per common share for a period of thirty-six (36) months from the date of issuance (the “Expiry Date”). The Options vest equally every quarter over a twelve (12) month period and shall expire upon the earlier of the Expiry Date, or thirty (30) days following the date of termination of the Agreement. The Agreement is subject to approval of the TSX Venture Exchange.

Crown is focused on advancing its 100% controlled Moonlight-Superior Copper Project in Northeast California which includes 4 known copper deposits. The Moonlight deposit hosts a current National Instrument 43-101 (“NI 43-101”) indicated resource of approximately 161 million tons (146.5 million tonnes) averaging 0.324% copper, 0.003 ounces of gold and 0.112 ounces of silver per ton for 1.044 billion pounds of copper, and an inferred resource of 88 million tons (80 million tonnes) averaging 0.282% copper per ton for 496 million pounds of copper. Further details of this resource can be found in the Technical Report on the Moonlight Copper Property dated April 12, 2007 at Sedar.com. The Superior and Engels deposits have a current NI 43-101 inferred mineral resource of 57 million metric tonnes at an average copper grade of 0.43% for 547 million pounds of copper. Further details of this resource can be found in the Technical Report on the Superior Project dated November 7, 2014 filed on Sedar which also discloses a historical resource estimate for the fourth deposit.

Mr. George Cole is the Qualified Person pursuant to NI 43-101 responsible for the technical information contained in this news release, and he has reviewed and approved this news release.
